Subject: DuPont QAPP Is NOT CBI

Hi All,

Roger and I received a reply from Chemours (DuPont) today saying the QAPP is not CBI. This is good news because then we don't have to worry about releasing information.

However, as quick reminder, the PFOA results at the residents' homes are confidential and we have to be careful with those and cannot display them such that people can see what home or even street they are associated with.

Have a good evening,
Jenny
